

New Functionality | OdoMobile

Deployment April 15th 2010

What is the OdoMobile?

You arrive at the client's location and would like to enter a comment in advance? *With OdoMobile, you can!* You must enter the odometer value, but wouldn't it be easier while you're still in the car? *With OdoMobile, you can!*

The OdoMobile is a scaled-down version of the trip consultation module designed for mobile devices.

The OdoMobile allows you to consult your travels; add a comment to a trip; add or edit an expense; and update your odometer value.

Quick and easy to use, the OdoMobile was specially designed for iPhone, Blackberry and Android users.

Access and authentication

To access the OdoMobile, enter the address odotrack.mobi in the web browser of your mobile device.

The connection window contains the following fields: *Username* and *Password*, to authenticate you on odotrack.ca.

N.B. You can directly access one of the following sections: **Travels**, **Expenses**, **Odometer update**. By default, you will be directed to travels.

A screenshot of the OdoMobile login interface. The interface is displayed on a mobile device screen with a blue header containing the "odo track" logo. Below the header is a "Login" form with the following fields: "Username" (text input), "Password" (text input), and "Go to" (dropdown menu with "Trips" selected). At the bottom of the form are two buttons: "Log in" and "Cancel".

Sections and functionalities

Here is an overview of the OdoMobile interface:

Allows user to change the language and securely log out of application.

Vehicle selection

Main browser. The selected section is displayed in white.

Destination	Hr/min.	Dist.	Stop	Type
12 Apr 19:31 25e Avenue, Montreal, Retour à la maison	00h 13m	4.5	12h 13m	P
12 Apr 17:59 Rue Étienne-Bouchard,	00h 27m	27.2	01h 18m	P
12 Apr 14:01 Autoroute Laval O, Laval, Inspection Client A	00h 03m	2.3	03h 30m	B
12 Apr 13:50 Autoroute Laval O, Laval,	00h 01m	1.1	00h 07m	P

Main content. Displays the travels, expenses or odometer value, depending on the section.

Button allowing to browse through travels and expenses.

Travels Section

The **Travels** section displays all trips from the most recent to the oldest, for the selected vehicle. It offers the possibility of viewing points of arrival, editing the type of trip as well as adding comments.

The functionality “*Current Trip*” allows the user to enter a comment in advance for a future or the current trip. We will get back to this later in the section.

Here is an overview of the Travels section:

Destination	Hr/min.	Dist.	Stop	Type
Current trip				
[Comment field]				
14 Apr 08:16 Autoroute Laval O, Laval,	00h 22m	21.1	00h 00m	P
[Comment field: Inspection Client A]				
[Map icon]				
13 Apr 17:07 25e Avenue, Montreal,	00h 27m	20.1	14h 46m	P
[Comment field: Back to home]				
[Map icon]				
13 Apr 08:12 Autoroute Laval O, Laval,	00h 28m	21.2	08h 28m	P
[Comment field: Inspection Client B]				
[Map icon]				

Next

The mobile version contains the following information:

- **Place of arrival** [\[read only*\]](#)
- **Duration of trip** [\[read only*\]](#)
- **Distance of trip** [\[read only*\]](#)
- **Stopped time** [\[read only*\]](#) (Amount of time passed between two trips; the previous trip and the start of the selected trip.)
- **Type of trip** [\[editable*\]](#)
 - B : Business trip
 - P : Personal trip
- **Comments** [\[editable*\]](#)
- **Map** [\[read only*\]](#) (Location of place of arrival on Google Maps)

** "Read only" refers to the value of a field that cannot be changed. The term "Editable" on the other hand, indicates that the value of the field can be modified by the user.*

Favorite Trip 

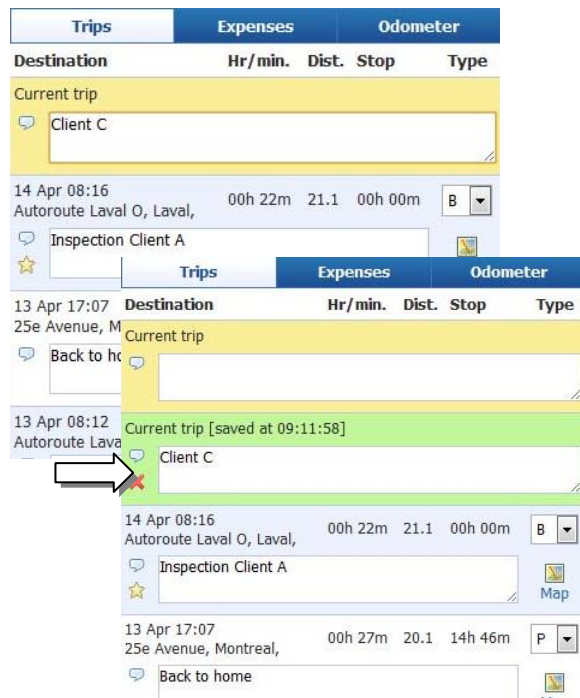

The star to the left of the *Comments* field indicates that this trip is programmed in your favorites.

Current Trip

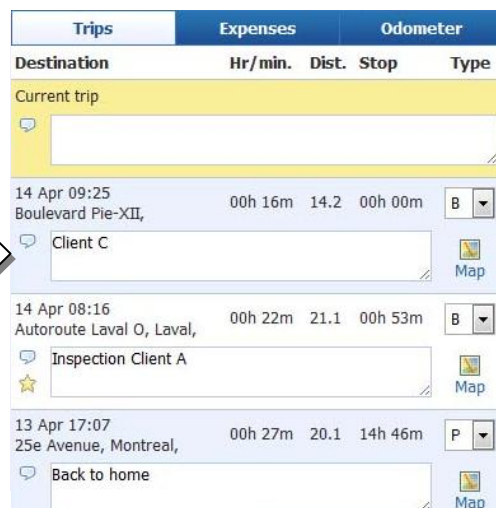

You are about to go meet a client or you have just arrived at their office? You would like to immediately enter a comment to your trip in the register. *The “Current Trip” functionality was designed for you!*

The yellow entry at the top of the list is called *Current Trip*. It contains an editable field which is used to enter the comment that will be applied to the current or future trip.

In the following example, the user has entered “Client C”. Once the comment is entered, it will be temporarily saved and display in green. Before the comment is added, you can edit or delete it.

Once the trip is generated by the system, the comment will be applied as shown in the following image. The most recent trip contains the comment “Client C”.

- F** *What happens if a comment is entered in “Current Trip” for a destination that already has a favorite comment?*
Both comments will be linked.
- A** *Can I enter more than one “Current Trip” for the same trip?*
Yes. The time at which each comment was entered will be added to the comment.
Example: Comment A [9:20], Comment B [9:40]

Expenses Section

The management of expenses is as complete as the web version. You can view, add and edit expenses for each vehicle.

The mobile version contains the following information:

- **Date** *[read only/editable when adding only]*
- **Type of expense** *[editable]*
- **Payment method** *[editable]*
- **Amount** *[editable]*
- **Comment** *[editable]*

To add an expense, click on the first entry named *Add expense*. The following window will open.

Odometer Section

The *Odometer* section allows you to enter the odometer value. You can enter this value in the field *Current reading*.

Actual Odometer Reading

 km

Once the value entered, in order to **synchronize** the odometer value with the system, you must select one of the following options: *Force synchronization*, *Add personal trip*, *Add business trip*.

HAVE A NICE TRIP!
